Tradition renews the understanding of the relationship between world cultures and humankind's creative legacy. Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, so that your class time is more engaging and effective. It provides tools that make assessment easier, learning more engaging, and studying more efficient.

The Humanistic Tradition, Book 1: The First Civilizations and the Classical Legacy - Gloria Fiero 2010-01-29 Interdisciplinary in approach and topical in focus, the sixth edition of The Humanistic Tradition continues to bring to life humankind's creative legacy. With more than 800 illustrations and some 150 literary sources in accessible translations, this widely acclaimed humanities survey takes a global perspective that is at once selective and engaging, and helps students better understand the relationship between world cultures. Available in multiple formats, The Humanistic Tradition examines the political, economic, and social contexts out of which history's most memorable achievements emerged.

The Humanistic Tradition - Gloria K. Fiero 1997-12-01 The first volume of The Humanistic Tradition guides students from the paleolithic through classical Greek culture and through the art and music of Han China. It is an exciting introduction to any humanities course but it can also serve as a colorful and informative supplement in courses on prehistory, classical history, or Greek and Roman literature.

The Humanistic Tradition Volume I: Prehistory to the Early Modern World - Gloria Fiero 2010-01-29 Interdisciplinary in approach and topical in focus, the sixth edition of The Humanistic Tradition continues to bring to life humankind's creative legacy. With more than 800 illustrations and some 150 literary sources in
accessible translations, this widely acclaimed humanities survey takes a global perspective that is at once selective and engaging, and helps students better understand the relationship between world cultures. Available in multiple formats, The Humanistic Tradition examines the political, economic, and social contexts out of which history's most memorable achievements emerged.

**Medieval Europe and the World Beyond**
Gloria K. Fiero 1998-01-01 Beginning with the birth of Christianity and of Buddhism, the second book of The Humanistic Tradition offers a wide-ranging look at the period from 0-1300 C.E. The book addresses the interaction between religion and culture in emerging Islamic societies while also drawing on art, music, literature, and architecture to draw a vivid portrait of life in Medieval Europe. It concludes with a discussion of the art and culture of medieval Asia - India, China, and Japan.

**The Humanistic Tradition Volume 1: Prehistory to the Early Modern World**

**Loose Leaf for The Humanistic Tradition, Book A: First Civilizations and the Classical Legacy**-Gloria K. Fiero 2019-02

**Faith, Reason, and Power in the Early Modern World**-Gloria K. Fiero 2005-12 "The Humanistic Traditionis quite simply the finest book of its type. Fiero manages to integrate the political, cultural, and social history of the world into one coherent and fascinating whole. It is a masterpiece of scholarship . . . balanced, interesting, easy to read, and consummately beautiful. Our professors praise its accuracy and scope and our students unanimously say it is their favorite textbook." — Sonia Sorrell, Pepperdine University The Humanistic Tradition features a flexible, topical approach that helps students understand humankind's creative legacy as a continuum rather than as a series of isolated events. This widely acclaimed interdisciplinary survey offers a global perspective, countless illustrations, and more than 150 literary sources. Available in multiple formats, The Humanistic Tradition explores the political, economic, and social contexts of human culture, providing a global and multicultural perspective which helps students better understand the relationship between the West and other world cultures.
Romanticism, Realism, and the Nineteenth-century World - Gloria K. Fiero 2001-08-01

The Human Journey - Kevin Reilly 2012-11-10
The Human Journey offers a truly concise yet satisfyingly full history of the world from ancient times to the present. The book’s scope, as the title implies, is the whole story of humanity, in planetary context. Its themes include not only the great questions of the humanities—nature versus nurture, the history and meaning of human variation, the sources of wealth and causes of revolution—but also the major transformations in human history: agriculture, cities, iron, writing, universal religions, global trade, industrialization, popular government, justice, and equality. In each conceptually rich chapter, leading historian Kevin Reilly concentrates on a single important period and theme, sustaining a focused narrative and analytical perspective. Chapter 2, for example, discusses the significance of bronze-age urbanization and the advent of the Iron Age. Chapter 3 examines the meaning and significance of the age of "classical" civilizations. Chapter 4 explains the spread of universal religions and new technologies in the postclassical age of Eurasian integration. But these examples also reveal a range of approaches to world history. The first chapter is an example of current "Big History," the second of history as technological transformations, the third of comparative history, the fourth the history of connections that dominates, and thus narrows, so many texts. Free of either a confined, limiting focus or a mandatory laundry list of topics, this book begins with our most important questions and searches all of our past for answers. Well-grounded in the latest scholarship, this is not a fill-in-the-blanks text, but world history in a grand humanistic tradition.

The Humanistic Tradition Book 5:
Romanticism, Realism, and the Nineteenth-Century World-Gloria Fiero 2010-01-29
Interdisciplinary in approach and topical in focus, the sixth edition of The Humanistic Tradition continues to bring to life humankind's creative legacy. With more than 800 illustrations and some 150 literary sources in accessible translations, this widely acclaimed humanities survey takes a global perspective that is at once selective and engaging, and helps students better understand the relationship between world cultures. Available in multiple formats, The Humanistic Tradition examines the political, economic, and social contexts out of which history's most memorable achievements emerged.

Romanticism, Realism, and the Modernist Turn-Gloria K. Fiero 1995

Looseleaf for The Humanistic Tradition, Book 6: Modernism, Postmodernism, and the Global Perspective-Gloria Fiero 2015-03-06

Sociocide-Keith Doubt 2020-11-03 Wars have a destructive impact on society. The violence in the first case is domicile, in the second urbicide, in the third genocide, and in the fourth, the book introduces a neologism, sociocide, the killing of society. Through the lens of this neologism, Keith Doubt provides persuasive evidence of the social, political, and human consequences of today’s wars in countries such as Bosnia and Iraq. Sociocide: Reflections on Today’s Wars rigorously formulates, develops, and applies the notion of sociocide as a Weberian ideal type to contemporary wars. Drawing upon sociology, anthropology, philosophy, and literature, Doubt analyzes war crimes, scapegoating, and torture and concludes by examining capitalism in the face of the coronavirus pandemic as a sociocidal force. Embedded in the humanistic tradition and informed by empirical science, this book provides a clear conceptual account of today’s wars, one that is objective and moral, critical and
humanistic.

**The Battle of the Classics**-Eric Adler  
2020-09-04 These are troubling days for the humanities. In response, a recent proliferation of works defending the humanities has emerged. But, taken together, what are these works really saying, and how persuasive do they prove? The Battle of the Classics demonstrates the crucial downsides of contemporary apologetics for the humanities and presents in its place a historically informed case for a different approach to rescuing the humanistic disciplines in higher education. It reopens the passionate debates about the classics that took place in late nineteenth- and early twentieth-century America as a springboard for crafting a novel foundation for the humanistic tradition. Eric Adler demonstrates that current defenses of the humanities rely on the humanistic disciplines as inculcators of certain poorly defined skills such as "critical thinking." It criticizes this conventional approach, contending that humanists cannot hope to save their disciplines without arguing in favor of particular humanities content. As the uninspired defenses of the classical humanities in the late nineteenth century prove, instrumental apologetics are bound to fail. All the same, the book shows that proponents of the Great Books favor a curriculum that is too intellectually narrow for the twenty-first century. The Battle of the Classics thus lays out a substance-based approach to undergraduate education that will revive the humanities, even as it steers clear of overreliance on the Western canon. The book envisions a global humanities based on the examination of masterworks from manifold cultures as the heart of an intellectually and morally sound education.

**The Humanistic Tradition Volume 2: The Early Modern World to the Present**-Gloria Fiero  
2015-02-20 Understanding that a global humanities course is taught in varying ways, Gloria Fiero redefines the discipline for greater flexibility with the 7th Edition of The Humanistic
Tradition. Enhanced by McGraw-Hill Education’s LearnSmart® and SmartBook®, Fiero delivers a learning experience tailored to the needs of each institution, instructor, and student. McGraw-Hill Connect Humanities is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, so that your class time is more engaging and effective. It provides tools that make assessment easier, learning more engaging, and studying more efficient.

**Beyond Posthumanism**-Alexander Mathäas
2020-02-01 Kant, Goethe, Schiller and other eighteenth-century German intellectuals loom large in the history of the humanities—both in terms of their individual achievements and their collective embodiment of the values that inform modern humanistic inquiry. Taking full account of the manifold challenges that the humanities face today, this volume recasts the question of their viability by tracing their long-disputed premises in German literature and philosophy. Through insightful analyses of key texts, Alexander Mathäas mounts a broad defense of the humanistic tradition, emphasizing its pursuit of a universal ethics and ability to render human experiences comprehensible through literary imagination.

**Humanism in Business**-Heiko Spitzeck
2009-02-26 There are many books about business and society, yet very few of them question the primacy of GDP growth, profit maximization and individual utility maximization. This groundbreaking book questions these assumptions and investigates the possibility of creating a human-centered, value-oriented society based on humanistic principles.
**Rhetoric as Philosophy** - Ernesto Grassi

2000-12-31 By going back to the Italian humanist tradition and aspects of earlier Greek and Latin thought, Ernesto Grassi develops a conception of rhetoric as the basis of philosophy. Grassi explores the sense in which the first principles of rational thought come from the metaphorical power of the word. He finds the basis for his conception in the last great thinker of the Italian humanist tradition, Giambattista Vico (1668-1744). He concentrates on Vico's understanding of imagination and the sense of human ingenuity contained in metaphor. For Grassi, rhetorical activity is the essence and inner life of thought when connected to the metaphorical power of the word. Originally published in English in 1980, Rhetoric as Philosophy has been out of print for some time. In his foreword to this reprint edition, Burke scholar Timothy W. Crusius rues the lack of concentrated attention to Grassi because "what he had to say about rhetoric is at least as significant as, for example, what Kenneth Burke taught us".

**Looseleaf for The Humanistic Tradition, Book 3: European Renaissance Reformation Global Encounter** - Gloria Fiero

2015-03-02 Understanding that a global humanities course is taught in varying ways, Gloria Fiero redefines the discipline for greater flexibility with the 7th Edition of The Humanistic Tradition. Enhanced by McGraw-Hill Education’s LearnSmart® and SmartBook®, Fiero delivers a learning experience tailored to the needs of each institution, instructor, and student. Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, so that your class time is more engaging and effective. It provides tools that make assessment easier, learning more engaging, and studying
Machiavelli has been viewed as the forerunner of the humanists of our day, liberals and socialists, who have discovered that moral ends sometimes require immoral means. Against this interpretation, Mark Hulliung argues that Machiavelli's "humanism," was rooted in classical notions of grandeur and greatness, and that his prime reason for admiring the ancient Roman republic was that it conquered the world. In short, Machiavelli was at his most Machiavellian precisely when he voiced his "civic humanism." Hulliung argues that Machiavelli's embrace of fraud and violence cannot be justified by patriotism or a professed concern with the common good. He indicts Machiavelli's use and abuse of history in the service of his cynical agenda?the quest for power. Hulliung sees Machiavelli as a republican imperialist, embracing the heroic pagan virtues and consciously subverting the humanistic tradition of Cicero, and the religious morality of Christianity, with an intentionally skewed interpretation of republican Rome. By inverting the Stoical and Christian elements of the classics, Machiavelli made the humanistic tradition give birth to Machiavellism, its terrible child. Hulliung's thesis is convincing, and his book is a valuable contribution to the debate on Machiavellian thought.

**Landmarks in Humanities**

Gloria Fiero
2016-02-24 Landmarks in Humanities is a single-volume survey of global culture designed to help students of humanities, cultural history, and history of the arts to understand and appreciate the relevance of historical works and ideas to their own daily lives. In chronological sequence, Landmarks guides students on a journey of the most notable monuments of the human imagination and the most prominent ideas and issues that have shaped the course and character of the world’s cultures from prehistory to the present. The landmarks that mark this journey are the great works of their place and time and, in some cases, of all time. Enhanced by McGraw-Hill Education’s SmartBook, Gloria Fiero delivers a learning experience tailored to the needs of each institution, instructor, and student. With the ability to incorporate new extended readings, streaming music, and artwork, Landmarks in Humanities renews the understanding of the relationship between world cultures and humankind’s creative legacy.

**Humanistic Tradition, Book 1 and 2 and 3**

**Steam and Gas Turbines for Marine Propulsion**-Maido Saarlas 2003 Takes an operational approach to the turbine relative to its function as part of an overall power plant.

**The Little Book of Humanism**-Alice Roberts 2020-08-27 THE SUNDAY TIMES BESTSELLER We all want to lead a happy life. Traditionally, when in need of guidance, comfort or inspiration, many people turn to religion. But there has been another way to learn how to live well - the humanist way - and in today's more secular world, it is more relevant than ever. In THE LITTLE BOOK OF HUMANISM, Alice Roberts and Andrew Copson share over two thousand years of humanist wisdom through an uplifting collection of stories, quotes and meditations on how to live an ethical and fulfilling life, grounded in reason and humanity. With universal insights and beautiful original illustrations, THE LITTLE
BOOK OF HUMANISM is a perfect introduction to and a timeless anthology of humanist thought from some of history and today's greatest thinkers.

The Humanistic Tradition: The European Renaissance, the Reformation and global encounter-Gloria K. Fiero 2002 The explosion of creativity that marked the European Renaissance provoked an unprecedented age of exploration and of cross-cultural encounter. From the depths of the Black Plague to the heights of Shakespeare's sonnets, book three of The Humanistic Tradition provides an exciting portrait of this period. In a compelling counterpoint to her description of the Renaissance, Fiero devotes a section to the cultures that came into increasing contact with the burgeoning West - the kingdoms of West Africa and the societies of North, Central, and South America.

The Humanistic Tradition, Book 4: Faith, Reason, and Power in the Early Modern World-Gloria Fiero 2010-01-28 Interdisciplinary in approach and topical in focus, the sixth edition of The Humanistic Tradition continues to bring to life humankind's creative legacy. With more than 800 illustrations and some 150 literary sources in accessible translations, this widely acclaimed humanities survey takes a global perspective that is at once selective and engaging, and helps students better understand the relationship between world cultures. Available in multiple formats, The Humanistic Tradition examines the political, economic, and social contexts out of which history's most memorable achievements emerged.

The Good Book-A. C. Grayling 2011-04-05 A non-religious, humanist reference draws on secular literature and philosophy from both Western and Eastern traditions to consider such topics as the origins of the world, how to relate to others, and how to appreciate life.
**Utopia**-Thomas More 2020-05-05 The classic political satire about an imaginary ideal world by one of the Renaissance’s most fascinating figures. Named after a word that translates literally to “nowhere,” Utopia is an island dreamed up by Thomas More, a devout Catholic, English statesman, and Renaissance humanist who would be canonized as a saint centuries after he was executed for choosing God over king. More’s novel introduces us to Utopia’s society and its customs. It is a place of no private property and no lawyers; of six-hour workdays and simple ways; and, intriguingly, of a combination of values that blend the traditional with the highly controversial, from euthanasia to married priests to slavery. Remarkably thought-provoking, it is a novel that asks us to question what makes a perfect world—and whether such a thing is even possible.

**Law and the Unconscious**-Anne C. Dailey 2017-01-01 How do we bring the law into line with people's psychological experience? How can psychoanalysis help us understand irrational actions and bad choices? Our legal system relies on the idea that people act reasonably and of their own free will, yet some still commit crimes with a high likelihood of being caught, sign obviously one-sided contracts, or violate their own moral codes—behavior many would call fundamentally irrational. Anne Dailey shows that a psychoanalytic perspective grounded in solid clinical work can bring the law into line with the reality of psychological experience. Approaching contemporary legal debates with fresh insights, this original and powerful critique sheds new light on issues of overriding social importance, including false confessions, sexual consent, threats of violence, and criminal responsibility. By challenging basic legal assumptions with a nuanced and humane perspective, Dailey shows how psychoanalysis can further our legal system's highest ideals of individual fairness and systemic justice.
The World of Persian Literary Humanism - Hamid Dabashi 2012-11-20 Humanism has mostly considered the question “What does it mean to be human?” from a Western perspective. Dabashi asks it anew from a non-European perspective, in a groundbreaking study of 1,400 years of Persian literary humanism. He presents the unfolding of this vast tradition as the creative and subversive subconscious of Islamic civilization.

Iron Kingdom - Christopher Clark 2007-09-06 'Of the "Great Powers" that dominated Europe from the eighteenth to the twentieth centuries, Prussia is the only one to have vanished ... Iron Kingdom is not just good: it is everything a history book ought to be ... The nemesis of Prussia has cast such a long shadow that German historians have tiptoed around the subject. Thus it was left to an Englishman to write what is surely the best history of Prussia in any language' Sunday Telegraph

The Finest Traditions of My Calling - Abraham M. Nussbaum 2016-01-01 "Patients and doctors alike are keenly aware that the medical world is in the midst of great change. We live in an era of continuous healthcare reforms, many of which focus on high volume, efficiency, and cost-effectiveness. This compelling, thoughtful book is the response of a practicing physician who explains how population-based reforms are diminishing the relationship between doctor and patients, to the detriment of both. As an antidote to stubbornly held traditions, Dr. Abraham M. Nussbaum suggests ways that doctors and patients can learn what it means to be ill and to seek medical assistance. Drawing on personal stories, validated studies, and neglected history, the author develops a series of metaphors to explore a doctor's role in different healthcare reform scenarios: scientist, technician, author, gardener, teacher, servant, and witness. Each role shapes what physicians see when they encounter a patient. Dr. Nussbaum cautions that
true healthcare reform can happen only when those who practice medicine can see, and be seen by, their patients as fellow creatures. His memoir makes a hopeful appeal for change, and his insights reveal the direction that change must take."--Jacket flap.

**Great Classical Myths**-Francis Richard Borroum Godolphin 1964 The Greek myths are presented in English translations of the Greek and Roman poets

**The Rule of Four**-Ian Caldwell 2012-08-21 "One part The Da Vinci Code, one part The Name of the Rose and one part A Separate Peace . . . a smart, swift, multitextured tale that both entertains and informs."—San Francisco Chronicle NEW YORK TIMES BESTSELLER Princeton. Good Friday, 1999. On the eve of graduation, two friends are a hairsbreadth from solving the mysteries of the Hypnerotomachia Poliphili, a Renaissance text that has baffled scholars for centuries. Famous for its hypnotic power over those who study it, the five-hundred-year-old Hypnerotomachia may finally reveal its secrets—to Tom Sullivan, whose father was obsessed with the book, and Paul Harris, whose future depends on it. As the deadline looms, research has stalled—until a vital clue is unearthed: a long-lost diary that may prove to be the key to deciphering the ancient text. But when a longtime student of the book is murdered just hours later, a chilling cycle of deaths and revelations begins—one that will force Tom and Paul into a fiery drama, spun from a book whose power and meaning have long been misunderstood. “Profoundly erudite . . . the ultimate puzzle-book.”—The New York Times Book Review

**Oral History**-James Hoopes 2014-03-19 A manual addressed to students rather than to teachers or researchers, Oral History: An Introduction for Students is unique among the "how to" books in the field, adapting some of the
best methods of group oral history projects to the needs of individual students. Useful in courses devoted entirely to oral history, the book also addresses the wider audience of students who may choose to do oral research in the context of otherwise traditional courses. The emphasis is on humanistic, imaginative, and intellectual challenge for students in integrating oral accounts with written documents. Only by achieving such flexibility, argues the author, can oral history fully realize its potential as a learning and teaching technique. A significant contribution to theory and methodology as well as an introductory manual, this book will be of interest to professional oral history researchers and those individual scholars interested in adding oral history to their research techniques. James Hoopes has explored the writings of sociology and communications specialists in order to present a richly detailed and helpful analysis of the interview situation from a transactional point of view. Of particular interest is the section of the book devoted to the ways in which oral history can be related to other areas of research such as biography and family history and to the broader fields of cultural and social history. Hoopes' central theme is that oral history, whether viewed primarily as a learning or research technique, can fulfill its promise as an important and humanistic resource only if it becomes part of general historical study wherever it is applicable.
