Bucket of Sunshine-Mike Brooke 2012-05-01 A Bucket of Sunshine - a term used for the use of a nuclear bomb - is a firsthand insight into life in the mid-1960s on a RAF Canberra nuclear-armed squadron in West Germany on the frontline in the Cold War. Mike Brookes describes not only the technical aspect of the aircraft and its nuclear and conventional roles and weapons, but also majors on the low-level flying that went with the job of being ready to go to war at less than three minutes notice. Brooke tells his story warts and all, with many amusing overtones, in what was an extremely serious business when the world was standing on the brink of nuclear conflict. The English-Electric Canberra was a first-generation jet-powered light bomber manufactured in large numbers in the 1950s. The Canberra could fly at a higher altitude than any other bomber through the 1950s and set a world altitude record of 70,310 feet. Due to its ability to evade early interceptors and providing a significant performance advancement over piston-engine bombers, the Canberra was a popular export product and served with many nations. Although jet powered, the Canberra design philosophy was very much in the Mosquito mould, providing room for a substantial bomb load, fitting two of the most powerful engines available, and wrapping it in the most compact and aerodynamic package possible. Rather than devote space and weight to defensive armament, the Canberra was designed to fly fast and high enough to avoid air-to-air combat entirely.

More Testing Times-Mike Brooke 2017-01-09 Following his first three successful books, describing his long career as a military pilot, Mike Brooke completes the story with more tales of test flying during the 1980s and 1990s. During this period his career changed to see him take control of flying at Farnborough and then at Boscombe Down. This often hilarious memoir gives a revealing insight into military and civilian test flying of a wide range of aircraft, weapons and systems. Following on from his previous books, Brooke continues to use his personal experiences to give the reader a unique view of flight trials of the times, successes and failures, and his memoirs make fascinating reading for any aviation enthusiast.

Your Life Your Planet- Geoff Ebbs 2021-02-01 Your Life, Your Planet is the toolkit that you need to nurture yourself — and the environment that nurtures you. It is full of tips that will help you to reduce your environmental footprint and enjoy a healthier and more satisfying life. A century and more of incredible growth and consumerism has dangerously damaged our environment, and has taught us that we ultimately depend on each other and the natural systems that provide our air, water, food, shelter and clothing. Unless we take personal responsibility and look after ourselves, each other and the natural world in a balanced and harmonious manner, the situation has little chance of improving. In order to tackle issues such as carbon emissions, our fossil fuel dependency, species loss, plastic and other pollution we need to actively engage with the people and the world around us and address the habitual way we seek convenience and ease. In doing this, we will not only reduce our environmental footprint but also take the first steps toward converting our homes from centres of rampant consumption to hubs of environmentally-friendly production.

The Enabled Life-Roy McCloughry 2013-09-19 As a much-published author, social commentator and academic, Roy McCloughry is ideally placed to make the latest theological thinking about disability accessible to a wide audience. As a person living with epilepsy who regards his condition, as a 'strange gift' from God - he brings rich personal experience of what it’s like to live as a disabled person in a world where acceptance frequently relies on the appearance of normality. Attitudes in the Church too can be strangely unsettling. People are often embarrassed or fearful in encountering disabled people, who are, if the Bible is to be believed, at the heart of the kingdom of God. After all, God does not want us to conform to society's stereotype of what is normal, but to celebrate diversity by delighting in who we are. We do not need to be 'cured' to know God's healing, empowering love in our lives. Indeed, as Roy's deeply moving interview with Jean Vanier underlines, the 'abled' may well discover their true humanity through learning from those whose humanity has sometimes been called into question.

The Dream Life of Sukhanov-Olga Grushin 2007-01-30 Olga Grushin’s astonishing literary debut has won her comparisons with everyone from Gogol to Nabokov. A virtuoso study in betrayal and its consequences, it explores—really, colonizes—the consciousness of Anatoly Sukhanov, who many years before abandoned the precarious existence of an underground artist for the perks of a Soviet apparatchik. But, at the age of 56, his perfect life is suddenly disintegrating. Buried dreams return to haunt him. New political alignments threaten to undo him. Vaulting effortlessly from the real to the surreal and from privilege to paranoia, The Dream Life of Sukhanov is a darkly funny, demonically entertaining novel.

**Inside My Mind** - Ron Hester 2012-03-22 Too many of us take too much for granted. For example, if we saw an old lady crossing the street, many of us would look at her and say, “Well, that’s just an old lady,” or wouldn’t think anything of her at all. We don’t stop to realize that the little old lady is someone’s mother, that she belongs to someone’s family, and that she means a lot to somebody. We take too much for granted. We let the little things that mean so much go by every day, and once they are gone, time never gives them back. Concentrate on these things, because they can bring so much to your life. Take the time to thank your heavenly Father, make family time, husband time, wife time, children time, listening time, talking time, caring time, sharing time, crying time, peaceful time, special time, and last but not least, giving time.

**The Zen of Home Water**-Jerry Hamza 2020-11-17
A Collection of Fishing Stories from Across the Globe, by a Master Storyteller. To the uninitiated, it might be somewhat surprising to discover that fly fishermen tend to be rather contemplative sorts. During those dark nights and long seasons when fishing is not a promising endeavor, we settle down to the next best thing, reading our vast libraries of ancient fishing lore, interspersed with the odd philosophical tome. And when we do, we usually don’t want to read proverbial stories about “landing the big one,” or lengthy how-to expositions on how to catch the aforementioned big one. Rather, we tend to prefer
stories that place our beloved piscatorial pastime within the larger context of life and nature. Stories that, as Hamza describes, “...sparks a light. A light that is both familiar and comforting.” Such is The Zen of Home Water, the latest angling book by Jerry Hamza. Hamza is a John Volker for the new millennium. His book is interspersed with stories about monster brook trout, beautiful North woods streams and lakes, quirky backwoods guides, and legendary fly hatches. Through it all, he shows us one of the most profound truths of life, that “It takes the acquisition of wisdom to understand that a happy life is actually a mosaic of small and insignificant events...we string together moments in life—like pearls becoming a beautiful necklace.” The iridescent pearls that Hamza strings together are many and include the importance of “freestyling”, that uncontrollable escape impulse that implores us to drop whatever we are doing and head to the stream, any stream, with fly rod in hand. Another recurring theme is the need to unplug from the modern, electronic world. He instructs us how to trespass (with bartered permission) and fish those waters that look so inviting yet so out of reach to the (usually) law abiding. His recipe for squirrel stew is not jealously guarded but freely shared. And his stories of catching giant brook trout in the Maine North Woods allow the reader, who usually can’t participate in such acts of angling greatness, to at least know that they are occurring to someone, somewhere. Hamza is a member of that peculiar subset of anglers, the bamboo rod aficionado. While acknowledging the cold, hard fact that bamboo rods are nothing more than conglomerations of “expensive blades of grass,” he also realizes that these handmade treasures passed down to us from previous generations will hopefully outlive us (and our car doors) and that we are merely their caretakers for a time. Although the dreaded “g” word (i.e., graphite) does make a brief appearance, Hamza is definitely one of those anglers who would rather hold an aged, organic creation of the bamboo rod maker’s art than the latest admittedly efficient chemical concoction straight from the laboratory. This puts him squarely in the tradition of John Gierach, although Hamza’s writing is better and his stories more entertaining. Hamza’s own home waters are dual--Maine’s Grand Lake Stream area and the southern shore of the Lake Ontario region. There are echoes of Thoreau’s Maine Woods in his stories of remote lakes and plentiful trout. And while he takes us all around the country when relating his angling exploits (Kerouac’s On the Road is a particular favorite of his), it is evident that the concept of “home water” carries a lot of weight with him. His beloved “Zen Lake”, with its less than perfect history and many small fish, could be the home water of any of us.

House of Glass-Sophie Littlefield 2015-08-17 Bestselling author Sophie Littlefield delivers a riveting, ripped-from-the-headlines story about a family put to the ultimate test when two men take them hostage inside their home. Jen Glass has worked hard to achieve the ideal life: a successful career, a beautiful home in an affluent suburb of Minneapolis, a seemingly perfect family. But inside the Glass house, everything is spinning out of Jen’s control. Her marriage to her husband, Ted, is on the brink of collapse; her fifteen-year-old daughter grows more distant each day; and her five-year-old son barely speaks a word. Jen is on the verge of breaking, but nothing could have prepared her for what is to come… On an evening that was supposed to be like any other, two men force their way into the Glasses’ home, but what begins as a common robbery takes an even more terrifying turn. Held hostage in the basement for more than forty-eight hours, Jen and Ted must put aside their differences if they have any hope of survival. They will stop at nothing to keep their family safe—even if it means risking their own lives. A taut and emotional tale of a family brought together by extraordinary forces, House of Glass is a harrowing exploration of the lengths a mother will go to protect her children, and the power of tragedy to teach us what truly matters. “Sophie Littlefield shows considerable skills for delving into the depths of her characters and complex plotting.” —South Florida Sun-Sentinel
